

**HI ENERGY  
GREEN TEA  
EXTRACT**

## HI ENERGY GREEN TEA EXTRACT

Green Tea has been known for its health benefits for some 4,000 years.

Green Tea contains many ingredients of which we know to have positive properties. Catechins, which belong to the group of polyphenols, give green tea its bitter taste. One of the most interesting catechins is “epigallocatechin gallate” (EGCG).

EGCG is especially abundant in the leaves of green tea.

# HI ENERGY GREEN TEA EXTRACT

- 1 Protecting cells from oxidative stress
- 2 Reduction of tiredness
- 3 Support of nervous system
- 4 Protection from UV caused skin aging
- 5 Stimulation of metabolism  
Often improvement of bowel movement
- 6 Support of stable blood circulation

# HI ENERGY GREEN TEA EXTRACT

A patented recipe of 3 Active Substances:

## 1. Bioperine®

which is a black pepper (Piper nigrum) extract enriched to 95% which provides a high proportion of the plant substance piperine.

## 2. Ester C®

Hi-concentrated vitamin C

A unique and patented form of calcium ascorbate created when vitamin C is buffered with calcium. For skin, joint and vision health, cardiovascular support, antioxidant protection and immune system wellness.

## 3. HiEnergy Green Tea Extract

## HI ENERGY GREEN TEA EXTRACT

Upon being ingested,  
the combination of:

1 Bioperine® black pepper extract

2 Ester C® highly concentrated vitamin C

3 Hi Energy Green Tea Extract®

stabilizes the valuable  
components of this green tea.

This is what makes the

HI ENERGY GREEN TEA EXTRACT

absolutely extraordinary

and unique.

# HI ENERGY GREEN TEA EXTRACT

1 capsule

contains 50% EGCG

= 160 mg EGCG

= 4 cups of green tea

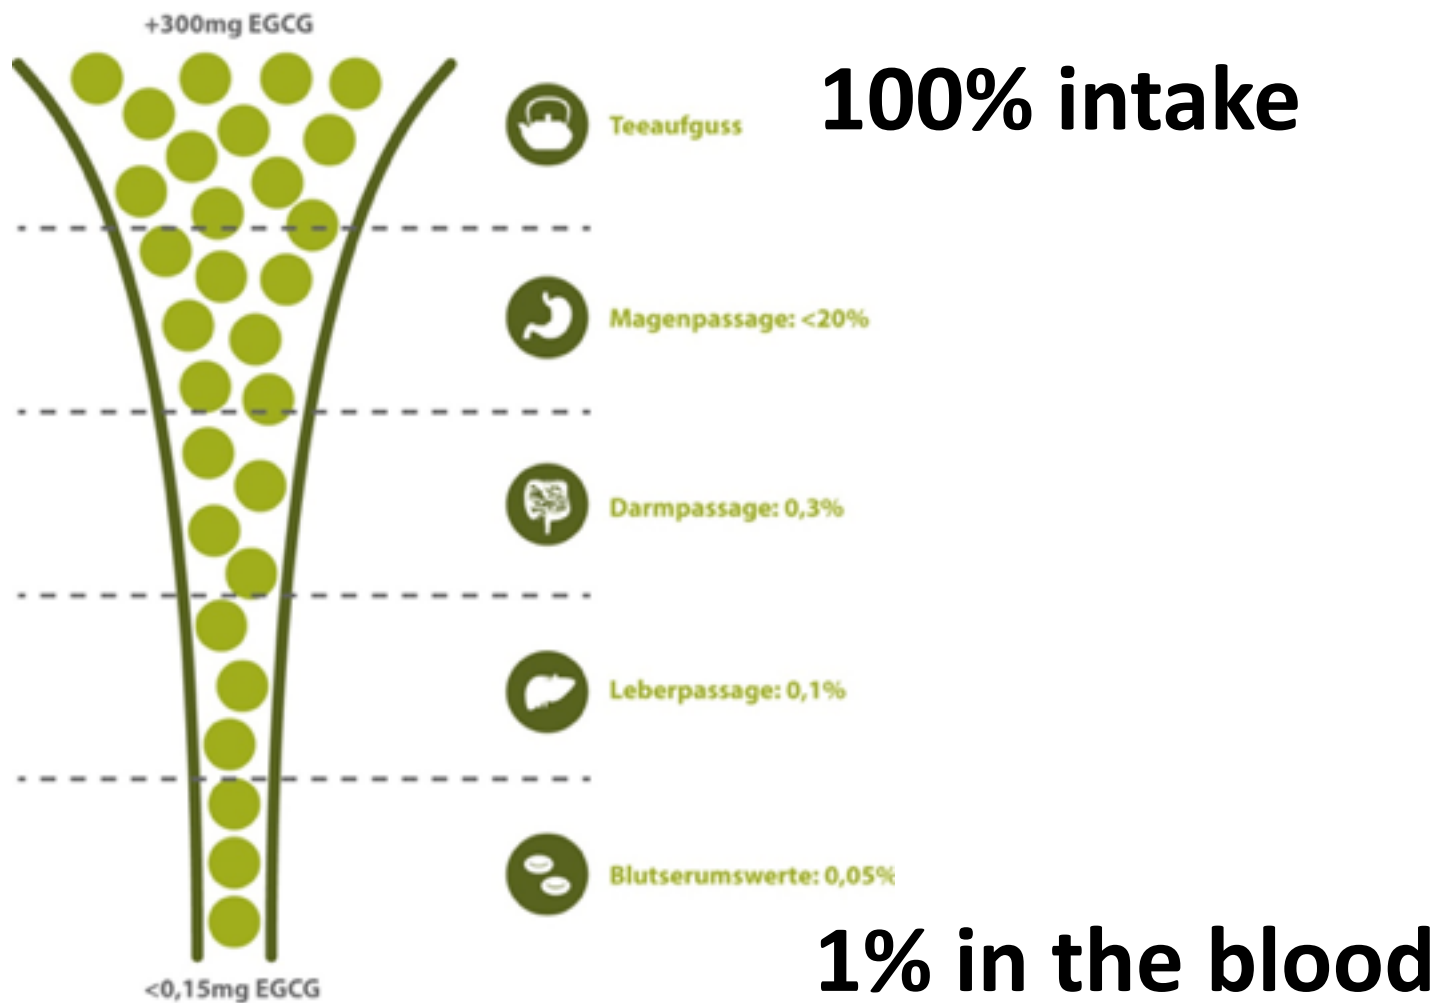

The recommended dose is

1 to 2 per day.

The caffeine level is very low only 2 %

Preferable have your daily dose  
in the morning before you have  
anything to eat or to drink.

If it is too intense for you,  
have it between meals  
but never with the meal.

**Only about maximum 1% of the EGCG in regular green tea will end up in the blood.**

**But 50% of the EGCG of the Hi Energy Green Tea Extract will end up in the blood.**

# HI ENERGY GREEN TEA EXTRACT

## Quality Commitment

### **Controlled biological cultivation**

using only raw materials from controlled organic cultivation.

Free of pesticides & heavy metals.

Each harvest of young green tea leaves is continuously tested by independent German laboratories for 800 different pesticides and heavy metal residues.

# HI ENERGY GREEN TEA EXTRACT

## Quality Commitment

The quality of the raw materials is based on the pure substance principle:

- raw materials are tested both in house as well as in test laboratories
- exclusive use of real active ingredients.
- without any additives
- without preservatives
- without release agent
- without lactose
- with our technological aids

## **High quality extract**

Due to the extraordinary good quality and the high EGCG concentration

### **HI ENERGY GREEN TEA EXTRACT**

is used in many clinical research studies.

## **Kosher and Halal**

### **HI ENERGY GREEN TEA EXTRACT**

is of purely plant/vegetable based origin and is therefore Kosher and Halal suitable.

## **Free of Fillers**

### **HI ENERGY GREEN TEA EXTRACT**

doesn't contain any fillers, only valuable highly concentrated ingredients from nature. The capsule shells are also of purely vegetable origin (HPMC capsules).

HPMC stands for hydroxypropylmethylcellulose and has been widely used as tablet and capsule excipient and capsule polymer for more than 15 years. Additionally, HPMC products are Kosher, Vegetarian-society and Vegan certified.
